- Freelance development of a fullstack PWA application using React, Redux and Firebase (ketchapp.com.br)

PET - Computer Engineering

Federal University of Espírito Santo

06/2017 - 04/2019

Vitória - Brazil

PET is a government-backed program where students are selected to perform extra-curricular (education, research and extended learning) activities while earning a government grant.

What I learned and effectively applied:

- Web Development (React, Redux, PHP, JS, HTML, CSS)
- Webservices (Node.JS)
- Competitive Programming: learning, competing and teaching it to High School students to help them prepare for the Brazilian Olympiad of Informatics

EDUCATION

Computer Engineering

Federal University of Espírito Santo

03/2017 - Present

Vitória - Brazil

Introcomp

Federal University of Espírito Santo

07/2015 - 12/2015

Vitória - Brazil

Courses

- An introductory course to programming in C. (2015)
- A preparatory course for the Brazilian Olympiad in Informatics (2017)
